

CODA Audio is a leading developer and manufacturer of high-quality loudspeaker systems with locations in Hanover (DE), Richmond (USA), Sofia (BG) & Worcestershire (UK). As well as the loudspeakers themselves, our product range comprises the entire chain of signal transportation, processing, amplification & cabling for all sizes of system. All of our hardware is built from component level in-house. We are internationally represented by our products and a number of patents. Whether in a concert hall or on a larger open-air stage, sound systems developed by CODA Audio set the standard with regard to performance and playback rendering.

At our headquarters in Hanover, we are expanding our product lines and upgrading our current platforms in our Development Department. In connection with this, we are currently seeking a:

Senior Professional with an emphasis on Electroacoustics and Measurement

Possible areas of responsibility:

- Design and development of newer products in the Pro Audio environment
- Product management
- Responsibility for the (further) development of simulation software for graphic representation of acoustic level

Your profile:

- You have completed studies in a discipline such as Electrical Engineering / Communications Engineering / Computer Science / Mathematics / Physics or possess comparable skills
- Additionally, you possess good knowledge in the fields of message transmission, communication networks or measurement technology
- You have at least 2-3 years experience in programming with an emphasis on Java as well as C and C++
- You have already successfully developed software with an emphasis on Java, C, C++
- Experience in product development in the Pro Audio environment
- You can communicate effectively in the English Language

Our offer:

- We offer you interesting and diversified work
- You can use your competency in the building of a Development Department
- Intensive training and support are essential elements for us
- We work in a young and dynamic team
- You will find a pleasant working atmosphere with us

Would you like to participate in an innovative team and are you interested in learning about an attractive industry? If so, we would love for you to send application documentation by email, attn. Mrs. Schaefer at: career@codaaudio.com.
